

FIND YOUR GRIND PRESENTS the

Certified Future Ready Educator (Level I) Professional Learning Course

Level up your future readiness by becoming a *Certified Future Ready Educator*. Find Your Grind’s professional development provides best practices, instructional strategies, and inspiring interactions for educators to take back to their classrooms to further engage their learners in discussion and classroom-based activities that will prepare students and educators for the future. Best practices and strategies covered in this session are easily implemented in every classroom regardless of classroom dynamics, preparation, planning and instruction, and engagement.

We hope to inspire you to apply a new standard for teaching your students —a transformational learning experience — engaging, advocative, and reflective learning. This will be an ongoing, daily practice through the culture you build in your classroom, the curricula you use, and the applied outcomes you know your students will achieve.

Course Outcomes

At the conclusion of the training, participants will be able to:

1. Apply future-ready and Find Your Grind best practices and concepts to facilitate learning
2. Demonstrate a future-ready mindset by following their individual Future Ready Educator Ethos statement
3. Practice and model self-reflection, critical thinking, and growth mindset to build a rapport with students and provide themselves with a more positive teaching experience

What Teachers Get

- an inspiring learning experience
- a Future Ready Community and ongoing conversations
- the proof you’ve met Future Readiness outcomes with a certificate of achievement and a Certified Future Ready Educator (Level 1) badge for your email signature
